Exercise 1

Write the JavaScript code to ask for the user's age and to determine and display via a dialog box whether the user is a minor or an adult. People are considered adults if they are 18 years of age or older.

Exercise 2

Write the JavaScript code to request a person's name and title (Mr, Mrs, Miss) and display one of the following messages :

- Display "Hello Sir, PersonName" if the title is "Mr."
- Display "Hello Madam, PersonName" if the title is "Mrs."
- Display "Hello Miss, PersonName" if the title is "Miss."
- Display "Hello Sir, Madam" in all other cases.

Exercise 3

Write the JavaScript code to request a student's grade and display a message about the student's grade :

- Display "Passed with honors" if the grade is 14 or higher,
- Display "Passed with good grade" if the grade is 12 or higher but lower than 14
- Display "Passed without honors, Passable" if the grade is 10 or higher but lower than 12;
- Display "Failed" in other cases.
